

the outcome of an environmental review required by this part; and

(5) If the designated Fund official determines that the Application proposes actions that require an environmental assessment or an EIS, the environmental assessment and/or EIS must be completed and circulated prior to the use of Federal funds for any activity that triggers the need for an environmental assessment and/or EIS.

**§ 1815.106 Supplemental environmental review.**

(a) The designated Fund official shall determine whether the proposed actions in the Application are sufficiently definite to perform a meaningful environmental review during the preliminary approval stage.

(b) If the designated Fund official determines that the Application is sufficiently definite to perform a meaningful environmental review during the preliminary approval stage, no conditions for supplemental environmental review shall be imposed.

(c) If the designated Fund official determines that the Application, or any part of the Application, is not sufficiently definite to complete a meaningful environmental review during the preliminary approval stage, the Fund shall require a supplemental environmental review prior to the taking of any action directly using Fund financial assistance that is not categorically excluded from environmental review or for which an environmental assessment or EIS has not been approved by the Fund. The applicant shall notify the designated Fund official when proposing any action requiring a supplemental environmental review and shall supply to the Fund all information necessary for the Fund to perform the supplemental environmental review. The Fund shall perform or have performed such a supplemental environmental review. The applicant shall not use any Fund financial assistance to perform any of the proposed actions requiring a supplemental environmental review that affect the physical environment until Fund approval for such action is received.

**§ 1815.107 Determination of review requirement.**

In deciding whether to prepare an EIS, the designated Fund official shall determine whether the proposal is one that normally:

- (a) Requires an EIS;
- (b) Requires an environmental assessment, but not necessarily an EIS; or
- (c) Does not require either an EIS or an environmental assessment (categorical exclusion).

**§ 1815.108 Actions that normally require an EIS.**

(a) If necessary, the Fund shall perform or have performed an environmental assessment to determine if an Application, or any portion of an Application, requires an EIS. However, it may be readily apparent that a proposed action in an Application will have a significant impact on the environment; in such cases, an environmental assessment is not required and the Fund shall immediately begin to prepare, or have prepared, an EIS.

(b) An EIS normally is required where an Application proposes to directly use financial assistance from the Fund for any Project that would:

- (1) Remove, demolish, convert, or substantially rehabilitate 2,500 or more existing housing units, or would result in the construction or installation of 2,500 or more new housing units, or which would provide sites for 2,500 or more new housing units; or
- (2) Remove, demolish, convert, or substantially rehabilitate 1,500,000 square feet or more of commercial space, or would result in the construction or installation of 1,500,000 square feet or more of new commercial space, or which would provide sites for 1,500,000 square feet or more of new commercial space.

**§ 1815.109 Preparation of an EIS.**

(a) If the Fund determines that an EIS should be prepared, it shall publish a notice of intent in the FEDERAL REGISTER in accordance with 40 CFR 1501.7 and 1508.22 of the CEQ regulations. After publishing the notice of intent, the Fund shall begin to prepare or have prepared the EIS. Procedures for preparing the EIS are set forth in 40 CFR part 1502 of the CEQ regulations.
